#### 2022 Maritime Link Benefits Report Q1 REDACTED

#### 1 1.0 INTRODUCTION

2

3 In its Decision dated February 9, 2022 with respect to NSP Maritime Link's (NSPML) application 4 for final approval of the Maritime Link project costs and the 2022 cost assessment, the Nova 5 Scotia Utility and Review Board (NSUARB or Board) provided the following direction with 6 respect to Nova Scotia Power Incorporated's (NS Power, Company) filing of Maritime Link 7 Benefits Reports (Report) as follows: 8 9 Therefore, the Board finds that NSPML and NS Power need to continue filing quarterly reports until otherwise directed by the Board. Any transition away from 10 11 the stand-alone reports to some form of FAM reporting will be addressed at the 12 appropriate time.<sup>1</sup> 13 14 The NSUARB provided the following further direction to NS Power and NSPML with respect to 15 the contents of those Reports: 16 17 1. Maintain current quarterly Maritime Link reports, supplemented with the enhancements identified in the Bates White Undertaking U-23 response 18 regarding the interim period. Those reports are also to include summaries 19 20 focused on the quantities and values of makeup energy and capacity, with 21 details being better addressed during a FAM audit process. In addition, the reports are to include financial data comparing capital and operating 22 23 expenditures against budgeted amounts, reports on the status of MFGS and 24 LIL commissioning, outstanding contractual, warranty and insurance 25 claims, final close out punch list matters, outstanding expropriations, and 26 outstanding operating agreements yet to be finalized. 27 2. Maintain current quarterly Maritime Link Benefits reports which also 28 identify costs associated with replacement cost of undelivered energy and 29 costs associated with extended operation of Lingan 2 and another thermal 30 resource that was intended to be displaced by Muskrat Falls deliveries. 31 File the annual Independent Engineer O&M Report. 3. File the annual marine survey report. 32 4. 33 5. File the Long Term Asset Management Plan (LTAMP) once completed.

Report on any forced outages experienced on the assets extending from MFGS to Woodbine.

## 2022 Maritime Link Benefits Report Q1 REDACTED

| 1<br>2<br>3 | 7. Report on wheel-through energy between Newfoundland and New Brunswick, along with the associated OATT revenues. <sup>2</sup> |  |  |  |
|-------------|---|--|--|--|
| 4           | The items applicable to NS Power are included in this Report.   |  |  |  |
| 5           |   |  |  |  |
| 6           | In accordance with the NSUARB's direction, this Report covers the benefits received for the                                     |  |  |  |
| 7           | period from January 1, 2022 to March 31, 2022 and contains the items directed by the NSUARB                                     |  |  |  |
| 8           | applicable to NS Power.   |  |  |  |
| 9           |   |  |  |  |
| 10          | In summary, NS Power confirms that from January 1, 2022 to March 31, 2022 inclusive, 257,909                                    |  |  |  |
| 11          | MWh of energy was supplied to NS Power over the Maritime Link. As of March 31, 2022, NS   |  |  |  |
| 12          | Power has determined that the Company achieved a total of \$ in quantified benefits   |  |  |  |
| 13          | for customers in 2022 associated with the Maritime Link. The specific details with respect to the                               |  |  |  |
| 14          | quantifiable benefits achieved are provided in Confidential Appendix A.   |  |  |  |

## 2022 Maritime Link Benefits Report Q1 REDACTED

| 1  | 2.0    | Q1, 2022 MARITIME LINK BENEFITS   |
|----|--------|---|
| 2  |        |   |
| 3  | For th | he period from January 1, 2022 to March 31, 2022 inclusive, NS Power received from Nakor    |
| 4  | a tota | l of 257,909 MWh of energy.   |
| 5  |        |   |
| 6  | 2.1    | Additional Commentary   |
| 7  |        |   |
| 8  | NS P   | ower received from Nalcor 100,721 MWh of energy in January 2022, 110,878 MWh of             |
| 9  | energ  | y in February 2022, and 42,472 MWh of energy in March 2022.                                 |
| 10 |        |   |
| 11 | Value  | e was also created through the sale of wheel-through transmission between the New           |
| 12 | Brun   | swick border to Bottom Brook, Newfoundland: 30 MWh of transmission in January, 2022,        |
| 13 | totali | ng \$205. No wheel-through transmission occurred in February or March, 2022.                |
| 14 |        |   |
| 15 | Addi   | tional benefit was realized through the import of emergency energy over the Maritime Link.  |
| 16 | In Jai | nuary, 2022, emergency energy was imported over the Maritime Link, supplying a total of     |
| 17 |        | MWh to the Nova Scotia system. In March 2022, emergency energy was imported over the        |
| 18 | Marit  | ime Link, supplying a total of MWh to the Nova Scotia system. The import over the           |
| 19 | Marit  | ime Link provided additional energy to support reliable supply to customers and             |
| 20 | load/  | generation balance during this period.  |
| 21 |        |   |
| 22 | The a  | mount of energy delivered over the Maritime Link in the Report period, broken out by Base   |
| 23 | Block  | c energy, Supplemental energy, Makeup energy and Additional energy, is provided in          |
| 24 | Partia | Illy Confidential Appendix B.   |
| 25 |        |   |
| 26 | Unde   | r delivered energy at the beginning of the Report period was 360,858 MWh and was 527,652    |
| 27 | MWh    | at the end of the Report period, which energy will be delivered at a later date. A detailed |

#### 2022 Maritime Link Benefits Report Q1 REDACTED

- 1 accounting of all under delivered energy, including the replacement value<sup>3</sup>, is provided in
- 2 Partially Confidential Appendix C.
- 3
- 4 There has not been any extended operation of Lingan 2 or other thermal resource in the quarter.

 $<sup>^{3}</sup>$  The replacement value of the undelivered energy at the beginning of Q1 was adjusted from what was reported in the Q4 2021 report to correct an error in the calculation of the replacement value of the undelivered energy at the end of Q4. Please refer to Appendix C.

| MWh of Additional Energy |     |     |     |       |

#### 2022 Maritime Link Benefits Report Q1 REDACTED

#### Appendix C

#### 2022 Undelivered Energy and Replacement Cost<sup>4</sup>

Figure 6. 2022 Q1 Undelivered Energy and Replacement Costs (Excluding Cost of Make Up Energy)<sup>5</sup>

|   | Beginning of Period<br>January 1, 2022 <sup>6</sup> | End of Period<br>March 31, 2022 |
|---|---|---------------------------------|
| Total Base Block Undelivered (MWh)                                    | 294,181   | 395,528                         |
| Total Supplemental Block Undelivered (MWh)                            | 66,677  | 132,124                         |
| Total Undelivered (MWh)   | 360,858   | 527,652                         |
| Replacement Cost of Undelivered Base Block<br>Energy (\$)             |   |                                 |
| Replacement Cost of Undelivered Supplemental<br>Energy Remaining (\$) |   |                                 |
| Replacement Cost of Undelivered Energy (\$)                           |   |                                 |

2

<sup>&</sup>lt;sup>5</sup> Starting in Q1 2022 make-up energy is not deducted from the undelivered energy.

 $<sup>^{6}</sup>$  The replacement value of the undelivered energy at the beginning of Q1 was adjusted from what was reported in the Q4 2021 report to correct an error in the calculation of the replacement value of the undelivered energy at the end of Q4.
